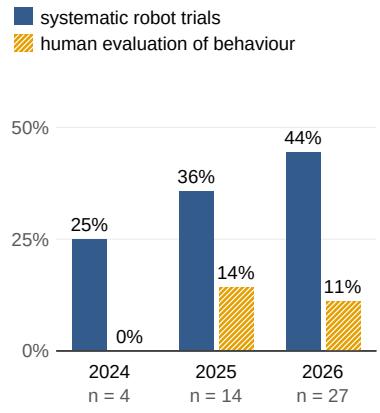
(a) Interfaces and the evidence of the papers that use them

		Papers using the interface	Systematic robot trials	Independent safety guard	Remote inference
Planner-facing					
Semantic or social state	D1	5	80%	60%	40%
Candidate selection	D2	6	17%	33%	100%
Objective shaping	D3	12	50%	83%	83%
Goal or waypoints	D4	7	57%	86%	57%
Policy-facing					
Latent conditioning	D5	4	25%	25%	25%
Direct action	D6	7	29%	14%	71%
Training-facing					
Training-time supervision	D7	8	75%	50%	38%
Human-facing					
Human-facing channel	D8	5	40%	60%	40%
Not executed					
Non-executed decision	D0	8	0%	0%	0%

Shares are within the papers using each interface; 15 papers use two interfaces and 1 uses three.


(b) Evidence by publication year
