Social representation
What is encoded about people?
kinematic agent
predicted motion
social-space field
relational structure
linguistic / symbolic
implicit / latent
FM role
What does the FM do?
scene and context interpretation
human-state and relation inference
social-norm reasoning and behaviour selection
instruction and preference grounding
human-facing communication
Social capability
Which property is targeted?
safety
spatial-social conduct
human understanding
normative and contextual conduct
human experience
Navigation interface
How does output reach action?
planner-facing
policy-facing
training-facing
human-facing
not executed
Evidence profile
How is it validated?
offline evaluation
closed-loop simulation
physical robot
real people in robot trials
human evaluation
open-world or long-duration deployment
Foundation-model-based social navigation
